THE DAILY JOURNAL.

Is the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, and having a general circulation throughout the State. It is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those on the Comstock.

DELINQUENT TAX SUITS.

STATE OF NEVADA,
COUNTY OF WASHOE,
District Attorney's office, Reno, Nevada.

Notice of Suits Commenced:

TO THE FOLLOWING NAMED DEFENDANTS and to all owners of or claimants to the real estate therein, hereinafter described, known or unknown:
You are hereby notified that suits have been commenced in the Justice Court of Washoe County, Nevada, by the State of Nevada, plaintiff, against each of the defendants hereinafter named, and each of the following described tracts or parcels of land with the improvements thereon (and improvements thereon separately assessed) and all owners of or claimants to the same, known or unknown, to recover the tax and delinquency assessed to said defendant against said property for the fiscal year commencing the 1st day of January, A. D. 1879, and ending the 31st day of December, 1879, and that a summons has been duly issued in each case; and you are further notified that unless you appear and answer the complaint filed in said court on or before the 10th day of February, 1880, a 10 o'clock A. M. judgment will be taken against you and the real estate and improvements herein described, for the amount of tax and delinquency specified, and costs of suit, to-wit:

MISCELLANEOUS.

BISHOP WHITAKER'S SCHOOL FOR GIRLS, RENO.

This School has been in successful operation for three years and a half, and has become well known throughout the State. From the time it was first opened until now no pains have been spared on the part of those who have it in charge to make it a

FIRST-CLASS SCHOOL.

Fully worthy the confidence of those who have daughters to be educated. And these efforts have been successful. It gives us pleasure to say that, although the number of scholars has at some time been larger than during the last term, the School is now in better condition than it has ever before been, and it is now, more than ever before, worthy of patronage and support.

TEACHERS:

Miss Kate A. Gill, the first Principal, returned and resumed her position at the beginning of the last term, to the great satisfaction of every scholar, and friend of the School. Mrs. E. J. Graham has also returned, and with Miss Gill will hereafter be identified with the School. Miss Eva Quaid, the teacher of music, is too well and favorably known to need any commendation from us. In addition to these the Rev. W. R. Tenney, Miss Julia S. Woodruff, and Miss Jane Friscoe, three thoroughly competent teachers have been employed during the past term. Addition to the staff of teachers will be made whenever the wants of the School may require it; but with thirty-five scholars, the number in attendance during the last term, six teachers are amply sufficient to do full justice to every scholar. While especial attention is given to the

Common English Studies.

And to the health and good manners of scholars, there is not wanting every facility needed for acquiring all the accomplishments of a

Higher Education.

One admirable feature of the School is that lessons in Free Hand Drawing, Singing and Penmanship are given regularly to all the pupils without extra charge. Callisthenics and Physical Training also receive due attention. But the best feature of the School is that it is a

Refined, Cultivated, Christian Home.
It is in the formation of a pure womanly character in its pupils that its best and most enduring influence is to be found. There are few who have been long connected with the School who do not show the effect of this influence upon their character and habits. The charges are as low as they can reasonably be placed.

\$300 a Year

Pays for Board and Tuition in all the English studies. Books and Washing are charged at the actual cost. An additional charge is made for private lessons in Music, Drawing or Modern Languages.

The Next Term begins on Thursday, January 8, 1880.

Letters of inquiry and applications for admission should be made to

MISS KATE A. GILL,
or to

NEWS OF THE MORNING.

An eruption of Mount Vesuvius began on Saturday.

The Theater Royal, Dublin, has been completely destroyed by fire. No lives lost.

The situation in Ireland is more hopeful. The relief work is beginning to tell.

Seven white and three colored culprits were publicly whipped in Delaware Sunday.

Superintendent Crawford hopes to resume full operations in the Mint early in March.

D. F. Verdenal has accepted the position of Secretary of the New York Mining board.

A man named Logart drank three gills of whisky in 20 minutes, in Bodie. He may live.

The American Congressional Temperance Society has elected Secretary of the Navy Thompson President.

A wholesale scandal is about to develop in Washington, implicating several Congressmen and their wives.

Martin King fell 350 feet down the McClintock Shaft Bodie into the sunup, and was instantly killed last Saturday.

The match over the Tyne championship course, between Elliott and Boyd, has been won by Boyd, the favorite, by four lengths.

Field declines to be the Democratic candidate for President, and says that the people of his section, the Pacific coast, are for Tilden.

The New York has a dispatch from its Washington correspondent, who has letters and telegrams from all over the State, showing that Blaine is the first choice of the New York Republicans.

The Committee on Federal Relations, of the California Senate, reported favorably on the joint resolution asking Congress to compel railroad companies to which subsidies have been granted to obtain patents for their lands.

A mob took three cow-boys who had been arrested for murder in Los Vegas, New Mexico, from jail Sunday morning, put ropes around their necks and dragged them around until they were dead.

A site for a depot has been donated the Virginia and Truckee Railroad Company by the people of Dayton. It is a piece of ground not far from the bridge. From that point to Sutro the road will run almost in an air line.

The present Chinese emigration to the Sandwich Islands will increase and eventually supersede the Americans, Germans and English there in the control of trade, as they belong to the respectable middle class of the realm, and are intelligent and well off.

Colonel Fair will go round the world before his return, but will not undertake to do it in 80 days. The party will consist of Colonel James G. Fair, James G. Fair, Jr., Dick Dey and Irving Scott. The start will be made from San Francisco and go via New York, the Suez Canal, etc. The whole trip will consume but 13 days more than to go to Yokohama and return.

Sunday night three burglars entered the bank at Knoxville, Ill., seized and bound the President, E. C. Runkle, who sleeps in the building, and after gagging and beating him and burning his feet in a shocking manner, to compel him to give up the safe combination, Great excitement prevails, but there is no clue to the perpetrators.

In the office of the Storey County Recorder there were yesterday filed the articles of association, a amalgamation and consolidation between the Central Pacific R. R. Co., California & Oregon R. R. Co. San Francisco, Oakland & Alameda R. R. Co., and the San Joaquin Valley R. R. Co. The articles were signed by the directors of the several companies named.

Forty men were discharged from the Sierra Nevada mine yesterday. It is understood that the works will be shut down, except the engineers required to work the air-compressors and pumping machinery. For all other operations in the mine the Union shaft will be employed. This will effect a great saving in the expenses of running the mine. With all the machinery running as heretofore about 55 cords of wood per day were consumed. Of course if any important development should be made at any time, the works would probably be started up again at once.

A joint resolution is before the Kentucky Legislature making the drawing of a deadly "weepin" a penitentiary offense. A member more knowing than his fellows offered an amendment providing for ten new penitentiaries.

Indians are still bringing in large quantities of game.

GIVE HIM TIME.

Some of Edison's lights are still burning. It is very possible that his invention is not perfect; few are at first; but gradually approach it. The locomotive is an example of this. Could anything be much ruder than was the first one, and it was only by a series of improvements that the present trim-built beauty was attained. So with the printing press, agricultural implements, mining machinery, in fact every thing we now have. Then why deride Edison and pronounce his grand work a failure? Anyone may poke fun at him, but there is none that can stand in his place. Scoffers are numberless, but there is but one Edison, and we are willing to wait and let this wonderful man work out his wonderful schemes, knowing that he will add to science and have a name long after his maligners are returned to dust and forgotten. Edison should expect these things. All leaders in every branch of thought have had to stand it and he will be able to as well, but how much better would it be for the ignorant yelpers if they at least let him alone.

The Man Who Saved Maine.

General Chamberlain is a man of such interest that the public will not readily forget him, although he has retired to the Presidency of his college, the State of Maine no longer being in any exigency to require the services of her General of Militia. General Chamberlain is a native of Bangor, and fifty-one years of age. His education was at a military academy and the Bangor Theological Seminary, whence he went as Professor to Bowdoin in 1855. In 1862 he was appointed Lieutenant Colonel of the Twentieth Maine Regiment; in 1863 became Colonel; in 1864 Brigadier General for gallantry at Petersburg, where he was severely wounded. He was in twenty-four pitched battles during the war, and was six times wounded, rivaling the services and scars of our General Bartlett. Commanding the First Division, Fifth Corps, as Major General, he led the advance at Appomattox, and received Lee's surrender. After the war he renewed his professorship of modern languages at Bowdoin, and was elected President of the College in 1871, after having been four years Governor of Maine.

Bogus Coin in Circulation.

Bogus \$5 gold pieces have been detected in circulation. The coin is a very perfect imitation of the genuine article. So far as weight and general appearance go, no one but an expert in such matters would for a moment suspect there was anything wrong about it. Its specific gravity, however, betrays it. An analysis of the coin shows that it is only 700 fine and worth only \$3.60. The alloy used is silver and copper. The coin is as well executed as if it had come from the United States Mint. Mexican doubloons of a similar character have also been offered for sale. A doubloon ought to be worth \$16, but the bogus coins are only worth \$6. The weight and general appearance is, however, preserved in the same manner as in the bogus \$5 pieces.

The Cincinnati Enquirer cites the long lives of most of the Presidents to prove that public life in this country is not opposed to longevity, and thinks the record may afford some consolation to venerable politicians with Presidential aspirations. John Adams reached the great age of 90 years and eight months. James Madison died at 85, Thomas Jefferson at 83, John Q. Adams at 80, Martin Van Buren at 79, Andrew Jackson at 78, James Buchanan at 77, and Millard Fillmore at 74. General Grant is the only ex-President now living.

E. M. Barnum, an attorney of Salt Lake City, details in a published letter the first discovery of gold in what is now the State of Nevada. According to this authority, the first gold was found not far from the present site of Virginia City, by a man named Lorenzo Dow, a nephew of the famous preacher of that name. The publication of this statement should call forth other reminiscences relative to this matter, and, perhaps, be the means of definitely settling an interesting point in history.

Democratic Senators Vest, Jones of Florida, Davis, of West Virginia, and Vance, and Representatives Carlisle, Cobb, Singleton, Coffroth, Geddis, House, Beltzhoover, Wilson, Bragg, Harris, Cabell, Tucker and Ladd are all Seymour men.

The whole number of Central Pacific shares of paid up stock is represented to be 542,755. The paring with 100,000 shares does not surrender control, and no change in the management is therefore expected at present.

Major Reno's second sentence is dismissed from the service. Sherman tried to have it changed to suspension, but the Cabinet could not overlook the gravity of the offence enough to let him escape so easily.

The "Shepherd's Fold."

The revelations made in court as to the management of the Shepherd's Fold in New York intensify the horror of the story as originally told. There were twenty-four children in the "Fold," and the poor little creatures when rescued by the officers of the law were found to be literally in a starving condition. "Breakfast" and "supper" consisted of bread and milk, or, when the baker failed to bring the bread, Indian meal, mush and milk—and dinner of pea and bean soup. The children were frequently punished with great cruelty, yet one of the witnesses testified with unconscious irony that the Superintendent "always had prayers" at night lasting for an hour. It is greatly to be regretted that the laws do not provide any adequate punishment for the miserable wretch, who undoubtedly practiced a system of starvation and cruelty upon the unfortunate children committed to his charge in the sacred name of Charity.

Opium Law.

Representative Davis' bill providing for the taxation of all opium manufactured in this country for smoking purposes, is heartily approved by the Commissioner of Internal Revenue, and will be strongly urged upon the attention of the House Ways and Means Committee as soon as the funding question and other special subjects, such as the sugar and steel rail controversies, concerning which the committee has recently heard extended arguments, shall have been disposed of. It is Mr. Davis' intention to obtain an opportunity to make an argument in person before the committee in explanation and advocacy of this bill, and also of his bill providing for the protection of the tariff on Chinese rice, nut oil and mustard seed.

Speck of War.

A dispatch from Galway states that a large body of tenantry in the town of Athenry, headed by Father McWilliam, beat off a number of process-servers who were under the protection of a small detachment of constabulary. Great excitement prevailed among the populace and some shots were fired, but no serious damage was done. The constabulary acted with moderation, confining themselves to defensive measures. The process-servers were thoroughly frightened and withdrew, carrying their papers with them. Rumors prevail in Dublin, but are not traceable to any authority, that attempts have been made to assassinate the bailiffs of Dunstable.

Bodie Road.

The route to Dayton to be followed by the proposed new railroad, says the Silver City Times, has been definitely agreed upon. It is that down Daney Canyon to the wood flats at Dayton, a distance of six miles from the Mound House. The road has been already located as far as Main street in Dayton and the grade stakes set. The railroad will pass alongside of County Commissioner Shaw's lumber yard, in the very heart of the town. There are nine men employed in the survey, which is in charge of a civil engineer.

It is stated that a Democratic paper will soon appear in San Francisco with \$50,000 capital stock. So far Democratic organs in that city have been failures. The Vigilance Committee suddenly put an end to John Nugent's Herald, and the Mail, a very spicy sheet suspended, after having swallowed up over \$50,000 belonging to Mark McDonald.

In the California Assembly Gaffey offered a joint resolution, which was unanimously adopted, requesting California's representatives in Congress to use their best efforts to secure the establishment of the postal telegraph throughout the Union.

Congress is expected to adjourn April 1st. It will be noticed that the Democrats are not as fierce as they were last Winter—in fact they are as mild as skim-milk. One dose of popular indignation was enough for them.

A hostile meeting between Senators Gordon and Ben Hill is possible. Gordon denounced some statements that Alex. Stephens made as infamous, malicious falsehoods, and Hill takes Stephens' side of the case.

A conspiracy to "Gareelon" Vermont has been unearthed, and nipped in the bud. The i's will all be dotted and the t's carefully crossed in the returns. Republican capital is being made as fast as could be wished.

The pay rolls of the Comstock for the month of January foot up \$306,285.99, with several small mines still to hear from.

The price of seats in the New York Mining Exchange have advanced to \$1,100, against about \$80 a year ago.

Senator Conkling, of New York, is not in very good health.

The Cost of War.

The leading newspaper published at Lima (El Nacional) thus sums up the disasters of the useless war into which Peru has been forced by the weak and corrupt officials who happened to be vented with a little brief authority: The loss of our territory to the nineteenth degree of latitude. The loss of more than 1,000 square leagues of Peru's area. The loss of the entire Department of Tarapaco. The loss of nearly 200,000 souls of our population. The loss of our railroad and telegraph for over 200 miles, worth more than \$30,000,000. The loss of the three ports of Paitos, Iquique, Pisco, and their corresponding inlets and smaller ports. The loss of \$20,000,000 worth of nitrate factories. The loss of 2,300 miles of nitrate lands, amounting to \$140,000,000. The loss of our nitrate and guano revenues, netting \$10,000,000 annually. The loss of the integrity of our territory and of the dearest rights of Peru as an independent and sovereign nation. Through all the pores of our organization there flows the blood of our shame and of the opprobrium which a handful of incompetent officials have cast upon the Republic.

In view of this indictment it is not surprising that President Prado fled from the country.

Henry Clay is Postmaster at Jamestown, Va. This is the oldest Postoffice in the old thirteen States. Letters have been delivered there in some form or other for 283 years, and yet the salary is only \$51 per annum.

Nichols' Infallible Injection.

Guaranteed to cure promptly and permanently every case of Gonorrhea, Gleet and Whites, no matter of how long standing, if directions are followed. Internal medicine not recommended or necessary. A cure guaranteed or money refunded. For sale by Plummer & Queen Druggists. West side Virginia Street.

ATTENTION!—The greatest wonder yet discovered in medicine is Mrs. Dr. Howe's celebrated neuralgia and toothache cures. Would you rather suffer the pain of having a tooth drawn than buy a bottle of Mrs. Dr. Howe's toothache medicine that will stop the pain and save the tooth? Mothers should not be without it for their infants; a few drops in a little warm water to swab a teething baby's mouth will instantly relieve the little sufferer. The medicine does not cauterize and is very pleasant. Sold by all druggists.

Pyramid Notes.

This camp is building up rapidly. There are now eight or ten ladies and forty or fifty men living there, and in the Spring the number will be greatly increased.

The Jones & Kinkadee is opening up excellently on the 400 level. The ledge is seven or eight feet thick, strong, well defined and assays well. Fifteen men are now employed. A mill will shortly be erected.

Charles Francisco will start a saloon there in a short time.

Just now Pyramid is reveling in a scandal which may be made very interesting for the gay Lothario in the case.

Considerable work is going on in the mines. Assessment work being done in several.

The Crown Prince is looking well and will produce bullion as soon as a mill can be had.

Pyramid will be lively this season and a large town be built up there.

The roads are in an excellent condition.

Several Renoites went out Sunday to see the J. & K. and the other mines, and came back well pleased with what they saw.

Slippery Fellow.

Our readers are familiar with the career of Mark Brown, who was arrested on a charge of stealing a horse from Storey county; of his arrest in Surprise Valley by Detective Gray; of his incarceration in the Virginia jail to await trial; of his escape; of his recapture, and of his sentence to three years in the State Prison for jail breaking, while the original charge of horse stealing was ignored. After his arrest he was placed in the Storey county jail to remain over last Thursday night, the officer intending to take him to Carson the next day. The jailer accidentally went through the jail at midnight and found that Brown was very busy. He had broken off the gas-pipe leg of the iron bed of his cell, and with it had pried the door open far enough to get half his body through. It is not the custom to go through the jail after the prisoners are locked up for the night, and had Jailer Hanks have followed the usual custom Brown would again have been at liberty, for it was demonstrated at the first break he made that the walls were miserably weak affairs, and would not withstand half an hour's work with his crowbar. Brown is now in Carson and will be closely guarded for three years.

Ophir Tailings.

In the early days of the Comstock the machinery for working ore was very rude and the knowledge of the miners very limited. As a consequence, about half of the precious metal escaped. Before the railroad was built to the Carson river the ore was hauled to Ophir for reduction. The tailings, with the gold and silver that escaped, has been allowed to lay unworked ever since until recently. Several processes were tried, but they all did not do the work satisfactorily. O'Hara has built one of his furnaces there, and is working the tailings very satisfactorily indeed. It is estimated that it will take two years to work all the tailings, and that from one to two millions of dollars will be realized.

Completed.

The Nevada Central Railroad, from Battle Mountain to Austin, was finished yesterday. The law authorizes Lander county to give \$200,000 bonds to the road provided that the road should be completed February 9th, 1880. It will be seen that the company just made it. Last night three carloads of laborers returned to Reno, their work having been accomplished.

Fire Keys.

Keys to the engine room have been placed in the following places, where they can be readily found in case of fire: Depot Hotel, Arcade Hotel, Post-office, Merchants' Exchange, Geo. Becker's Wm. Stopher's, and M. T. Conate's. Wm. Getchell, W. R. Mogher, and each member of No. 1, also have keys.

Inserted Free.

All marriages, births or deaths inserted in this paper free of charge. Some people think that pay is required, but such is not the case. All that is required is to hand in the notice, and it will be published.

Catholic Church.

This edifice is now being built in Evans' Addition. The frame work is well up. The building will be 70 x 40 feet. When completed it will cost between \$6,000 and \$7,000, and will be a nice edifice.

Catholic Fair.

Arrangements are being made to hold a Fair a week after Lent for the benefit of the new Catholic Church now in course of construction. Particulars will be announced in due time.

If the Gazette keeps on telling about strong men it may tell a few no-such-things. Goliath and Samson will have to look to their laurels.

Men will be put to work on the Mountain View mine to-day. The shaft will be sunk deeper and the mine thoroughly and systematically prospected.

Dick Tobin got twenty days for taking Strassburger's cloak. He liked the prospect of twenty days' food and shelter at the county's expense.

Mrs. Amos A. K. opened a dancing school at Kimball's Hall last night. Lessons will be given every Monday evening.

A drunk and disorderly fellow was fined \$15 by Justice Young yesterday. He paid it.

The Golden Fleece delinquent list is published.

When a man gives a good round sum to any object, how much is it supposed to be? To give 900,000,000 might fill that bill, and anybody could do it and not half try, but people would starve all the same.

SOMETHING WHICH SHOULD NOT BE OVERLOOKED.—Attention is called to the consequences of the approaching change of season. One in particular is the great clearance sale of my entire Fall and Winter stock at sweeping reduction of prices. Without exception goods will be sold mostly at cost. My object is to raise means enough to purchase my Spring stock. This is no farce. I most urgently request my patrons to call. This sale will last 30 days only, exclusively for cash.

Correct your Faults
Of digestion with Hostetter's Stomach Bitters, a medicine which removes flatulence, heartburn, irregularity of the bowels, poverty of the blood and all shifting, harassing, perplexing symptoms of dyspepsia, as well as their cause. A conspicuous change in the appearance as well as in the feelings of those who use the Bitters takes place as the distressing symptoms disappear, and the stomach, liver and bowels resume their functions in full force and activity. The haggard appearance of the countenance and malnourished aspect of the system are supplanted by a healthier look, and as the food is assimilated, the body acquires substance. Appetite, without which food does comparatively little good, is restored and the nervous system refreshed with much needed slumber, through the use of this medicine, which is also beneficial to persons of a rheumatic tendency, and an inestimable preventive of fever and ague.

Brown's Household Panacea

Is the most effective Pain Destroyer in the world. Will most surely quicken the blood whether taken internally or applied externally, and thereby more certainly relieve pain, whether chronic or acute, than any other pain alleviator, and it is warranted double the strength of any similar preparation.

It cures pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache and all aches, and is the Great Reliever of Pain. Brown's Household Panacea should be in every family. A teaspoonful of the Panacea in a tumbler of hot water, sweetened if preferred, taken at bedtime, will break up a cold. 25 cts. a bottle. Jan 10-17-TT&W
